

Lead Generation, CRM & Executive Assistant Portfolio

Manchester Local Business Research + Administrative Work Samples

Kevin Digal

Business Development | Sales Support | Administrative Professional

PORTFOLIO FOCUS

- Prospect research & lead qualification
- CRM-ready data organization
- Outreach preparation & follow-up
- Calendar, inbox & task management
- Administrative coordination & reporting

Independent case study + anonymized / fictional administrative work samples.

Professional Profile

Business development experience translated into structured, execution-ready support.

Profile Summary

I am a remote business-support professional with experience across business development, inside sales, client communication, lead generation, CRM administration, quotations, reporting, follow-ups, and day-to-day operational coordination. My work style is structured, detail-focused, and built around keeping information accurate and ready for the next action.

Verified Happy2Help Experience

Business Development & Inside Sales Specialist

August 2020 - May 2026

- Lead generation, qualification & appointment setting
- CRM / database accuracy and follow-up management
- Shared inboxes, quotations, proposals & supplier follow-ups
- Excel reports, trackers and operational coordination

Professional strengths

Prospect research

CRM organization

Client communication

Follow-through

Experience Context

This Manchester project is an independent work sample. It demonstrates the same research, qualification, data-management, and sales-support capabilities developed through my prior business-development and operations-support work.

Manchester Lead-Generation Case Study

Local-business research designed to identify website and digital-presence opportunities.

20

QUALIFIED PROSPECTS

15

HIGH-PRIORITY LEADS

5

MEDIUM-PRIORITY LEADS

13

NO WEBSITE LISTED

Purpose

The project focused on Manchester-area local businesses that could benefit from a clearer, more credible, or more conversion-friendly online presence. Each record was reviewed for an observable digital gap and a practical reason to contact the business.

Target Market

- Dog grooming and mobile pet services
- Auto repair, mobile mechanics and diagnostics
- Plumbing, gas and emergency trades
- Electricians and emergency services
- Personal training and local service professionals

Research basis: Google Business Profiles, public social pages and Companies House where relevant.

Research checked: 17 Jul 2025

Project Objectives + Target Customer Profile

A qualification framework built around fit, evidence and reachable next steps.

Project Objectives

- Identify suitable Manchester prospects with a clear online-presence gap.
- Verify publicly available business information before adding a record.
- Assess opportunity strength using website weakness, review proof and contactability.
- Organize qualified leads into a consistent spreadsheet structure.
- Prepare each lead with a specific value proposition and personalized opening.
- Prioritize records so outreach can start with the strongest opportunities first.

Ideal Customer Profile

Profile

- Manchester-based local or small service business
- Owner/operator or director-led decision making
- Active business with reviews, phone contact or recent social activity
- No owned website, social-only presence or weak/temporary builder page
- Customer journey lacks clear services, pricing, location, hours or enquiry path

Buying signals

Strong reviews / no site

Emergency service / weak trust

Active social / weak conversion

Lead-Generation Process

From market definition to CRM-ready next action.

1

Define target

Manchester local-service businesses and website-fit criteria.

2

Research

Search public business listings, social pages and relevant records.

3

Review presence

Check website status, brand ownership, mobile clarity and enquiry path.

4

Identify signals

Use reviews, activity, service model and website weakness as evidence.

5

Collect data

Capture company, category, location, public links, contact route and notes.

6

Verify

Cross-check visible details and mark unavailable information accurately.

7

Prioritize

Assign High or Medium based on fit, proof and reachability.

8

Prepare outreach

Write a personalized opening, next channel and follow-up approach.

Spreadsheet & CRM Organization

The source sheet is designed to move a prospect from research into outreach with context intact

FIELD		OPERATIONAL PURPOSE
Business Name		Primary account / prospect identifier
Industry		Supports segmentation and message relevance
Location in the UK		Confirms Manchester fit and local context
Website Status		Captures the core digital-presence gap
Google Business Profile / Main Online Link		Primary public research source
Contact Person if available		Decision-maker only when public or reasonably supported
Email / Phone if publicly available		Public contact routes without inventing missing data
Why this is a good lead		Documents the qualification evidence
Specific value Street Front Sites can offer		Translates the gap into a relevant solution
Suggested personalized opening line		Makes outreach immediately actionable
CRM Handoff Logic		Once outreach begins, extend the structure with status, last activity, next follow-up, next action, owner and notes so each record stays complete and ready for follow-through.

Lead Qualification & Prioritization

Priority reflects active status, website weakness, review proof and availability of a direct contact route.

Verified Priority Split

15 / 20 **5 / 20**

HIGH PRIORITY

MEDIUM

Website Opportunity Mix

- No website: 13
- Social-only: 2
- Weak/basic site: 5

What Makes a Strong Lead

- Visible customer demand
- Clear digital gap
- Reachable contact route
- Easy-to-explain website value

High Priority

- Clear website gap or social-only presence
- Strong proof of active demand or reputation
- Direct public contact route
- Specific, easy-to-explain website value

Medium Priority

- Existing website but weak branding or temporary builder domain
- Credible fit, but improvement case is less urgent
- Suitable for tailored outreach after stronger gaps are contacted

Sample Lead Analysis | Top Opportunities

Public business names retained; personal contact details and exact contact data omitted.

01 Mobile car Diagnostic and repair

Mobile mechanic / diagnostics | No website | ~200 reviews + 24-hour service

OUTREACH ANGLE Lead with the gap between strong review proof and no service/call-out page.

Call first

02 K9 Services MCR Ltd

Dog groomer | No website; active Facebook | 128 reviews + active social presence

OUTREACH ANGLE Position an owned site as the trusted home for services, pricing guidance, gallery and booking enquiry.

Call / Facebook

03 M CARS service

Car repair & maintenance | No website | 89 five-star reviews

OUTREACH ANGLE Use the existing reputation as proof; focus on services, location and direct booking.

Call first

Sample Lead Analysis | Trade + Local Service

The research ties each digital gap to customer trust and conversion.

04 Hexa Plumbing & Gas Ltd

Plumbing & gas services

Observed gap: Facebook page used as website | 67 five-star reviews

RECOMMENDED ANGLE Explain how an owned domain can improve trust and present services, coverage, trust signals and quote options.

Call first

05 Lucy's Groom Room

Dog groomer

Observed gap: No website | 59 five-star reviews

RECOMMENDED ANGLE Reference the excellent reviews, then offer a simple services/gallery/booking page that reduces uncertainty before customers call.

Call / SMS

Privacy Treatment

Personal names, emails, phone numbers and exact addresses are intentionally omitted from this public-facing portfolio.

Outreach & Follow-Up Strategy

Each qualified record is prepared with a reason to contact, a first channel and a clear next action.

01

Initial contact

Call / message / email

02

CRM note

Outcome + context

03

Follow-up

2-3 working days

04

Final follow-up

5-7 working days

05

Appointment / handoff

Booked or closed loop

Personalization Framework

- Start with a proof signal: reviews, active social presence or 24-hour service.
- Name the observed gap: missing website, social-only presence, weak builder domain or unclear services.
- Connect the gap to trust, clarity, enquiry, booking or call-out response.

Follow-Up Discipline

- Record outcome and next action immediately after contact.
- Follow-up 1: 2-3 working days after first contact.
- Follow-up 2: 5-7 working days later, then close unless engaged.
- Phone-first used when public email was unavailable.

Tools, Quality Control & Deliverables

Designed to be usable by a salesperson or client, not just visually complete.

Tools Demonstrated

- Microsoft Excel / spreadsheet organization
- Public-source business research
- Lead qualification and prioritization
- CRM-ready data structuring
- Personalized outreach preparation
- Reporting and documentation

Quality-Control Process

- Check duplicates before outreach
- Use "Not publicly found" instead of guessing
- Normalize categories and priority labels
- Review missing fields and formatting
- Re-verify details immediately before contact
- Keep notes specific for the next person

Broader Professional Toolkit

- Microsoft 365 & Excel
- Google Workspace
- CRM systems
- Slack & Zoom
- Quotations / proposals
- Remote coordination

Broader experience; not presented as tools used in this case study.

Executive Assistant & Administrative Support

Anonymized / fictional work samples prepared by Kevin Digal

Included in this section

- Calendar and weekly planning
- Inbox triage and professional email drafting
- Task tracking and follow-up workflows
- Personal admin and document organization
- End-of-day reporting and minimal-direction support

Personal & Executive Assistant Work Sample Packet

Fictional and anonymized examples demonstrating practical support workflows.

EA / Admin VA
ROLE FIT

Minimal direction
WORK STYLE

Fictional / redacted
DATA PRIVACY

WORK SAMPLE	SKILLS DEMONSTRATED	CLIENT VALUE
Calendar & Weekly Planning	Scheduling, prioritization, meeting prep	Reduces conflicts and protects focus
Inbox Triage & Email Drafts	Email management, drafting, urgency filtering	Keeps communication moving
Task & Follow-Up Tracker	Ownership, deadlines, follow-ups	Makes open loops visible
Personal Admin Support	Errands, documents, vendor coordination	Handles details discreetly
EOD / Weekly Updates	Reporting, risks, next actions	Gives concise progress visibility

Portfolio sample only. No real client information, private data, phone numbers, email addresses or external links.

Calendar & Weekly Planning Sample

A simple operating rhythm for coordinating personal and professional priorities.

Planning Style

Urgency + impact + dependency

Cadence

Daily review + EOD update

Escalation

Only items needing approval / judgment

Time	Item	Type	Preparation / Notes	Status
8:30 AM	Inbox scan + schedule review	Admin	Flag urgent items, confirm links, update follow-up list	Done
9:15 AM	Vendor call [redacted]	Work	Prepare talking points, review thread, confirm next action	Ready
10:30 AM	Personal appointment	Personal	Protect travel buffer; no calls within 30 minutes	Protected
12:00 PM	Document review block	Work	Organize files; archive outdated copies	In progress
2:00 PM	Client follow-up emails	Work	Send updates and log replies in tracker	Scheduled

Calendar Coordination Rules

Protect high-priority meetings | Add 15-30 minute buffers | Confirm date, time zone, link, attendees and prep | Propose the cleanest solution when conflicts appear

Inbox Triage & Email Drafting Sample

Filter urgency, draft responses and keep communication moving without overloading the client.

Urgent / Decision	Contract update requires approval	Flag immediately with context + recommendation
Routine / Can handle	Meeting request with available times	Draft / send confirmation within calendar rules
Waiting / Follow-up	Vendor has not replied to quote request	Follow up and update tracker
Reference / File	Receipt, itinerary, document copy	Save to correct folder and label clearly
Low value	Newsletter or automated promo	Archive unless monitoring is requested

Draft Email | Meeting Coordination

Thank you for confirming. [Client Name Redacted] is available on Thursday at 10:00 AM. I have placed a tentative hold and can send the invite once you confirm the meeting link and attendees.

Draft Email | Polite Follow-Up

I just wanted to follow up on the document request below. When you have a chance, could you please send the updated version or confirm if the current file is still the latest copy?

Judgment rule: routine items can be handled directly; sensitive, financial, legal or relationship-based decisions should be summarized for approval.

Task Tracker & Follow-Up Workflow Sample

A simple system for open items across work, personal admin, documents and follow-ups.

8
OPEN

3
WAITING

2
DUE SOON

5
COMPLETED TODAY

ID	Task	Category	Priority	Due	Status	Next action
A-101	Confirm Friday meeting time	Calendar	High	Today	Waiting	Follow up by 3 PM if no reply
A-102	Organize shared drive files	Documents	Medium	Fri	In progress	Rename using YYYY-MM-DD format
A-103	Book personal appointment	Personal	High	Today	Ready	Ask client for preferred location
A-104	Prepare weekly expense folder	Admin	Medium	Mon	Not started	Collect receipts; sort by category
A-105	Vendor quote follow-up	Operations	High	Today	Sent	Wait; prepare backup option
A-106	Update contact list	CRM / Records	Low	Next week	In progress	Remove duplicates; complete notes

Follow-Up Workflow

1 Capture every task | 2 Tag priority / owner | 3 Set next action + date | 4 Send reminders / follow-ups | 5 Close the loop

Personal Admin & Document Organization

Support both professional work and personal life admin while keeping information organized and private.

Schedule home service	Preferred date, access notes, vendor options	Compare availability, confirm appointment, save confirmation	Booked + calendared
Organize receipts	Folder access, date range, categories	Sort by month/category; flag unclear items	Summary sent
Plan local reservation	Date, party size, preferences, budget	Research, recommend top 2, hold/book with approval	Status shared
Prepare documents	Purpose, format, deadline	Find latest files, rename, place in shared folder	Ready for review

Sample Folder Structure

/Client Admin /01 Action Needed /02 Waiting-Follow-Up /03 Calendar & Meetings /04
Personal Admin /05 Receipts & Finance /06 Reference Documents /07 Archive

File Naming Standard

Meeting notes: YYYY-MM-DD - Topic - Notes
Receipt: YYYY-MM-DD - Vendor - Amount
Draft / Final: YYYY-MM-DD - Document Name - Version

End-of-Day Report & Weekly Summary Sample

Concise visibility into what was handled, what is waiting and what needs attention.

End-of-Day Report Sample

Completed today	Confirmed Thursday meeting, organized 12 files, sent 2 follow-ups, updated tracker.
Waiting on	Vendor quote, appointment approval and signed document from [name redacted].
Needs your decision	Choose Option A or B; I recommend Option A because it matches the preferred time window.
Risks / blockers	Vendor quote delayed; backup option prepared if no reply by tomorrow morning.
Tomorrow's priorities	1) Vendor follow-up 2) Finalize appointment 3) Meeting notes 4) Document cleanup

Weekly Admin Summary

Calendar	All confirmed meetings updated; one tentative meeting awaits link. confirm link by Monday
Inbox	Urgent emails answered; 4 items moved to waiting/follow-up. Review waiting items each morning
Documents	Shared drive cleaned and renamed consistently. Archive old duplicates
Personal admin	Two tasks completed; one needs approval. Send decision reminder
Operations	Tracker updated and open tasks prioritized. Close high-priority items first

Minimal-Direction Support SOP & Quality Checklist

A proactive operating model for a client who wants reliable support without constant supervision.

- 1 Understand priorities** Clarify deadlines, protected time, sensitive contacts and communication style. *Prevents busywork and keeps support aligned.*
- 2 Organize tasks** Place open items in one tracker with owner, priority, due date, status and next action. *Creates visibility and reduces mental load.*
- 3 Execute independently** Handle routine scheduling, filing, follow-ups, email drafts and admin updates. *Saves time and keeps work moving.*
- 4 Escalate smartly** When approval is needed, send a short summary, options and my recommendation. *Makes decisions easier for the client.*
- 5 Close the loop** Confirm completion, update records and include results in EOD / weekly reports. *Builds trust and avoids confusion.*

Quality Control Checklist

Calendar: date, time zone, link, attendees, buffers & conflicts | Email: tone, recipient, attachment, context & approval | Documents: latest version, clear name, correct folder, no duplicates | Tracker: status, owner, due date & next action | Update: completion, blocker or recommendation clearly communicated

KEY TAKEAWAYS

Structured support that is ready for action.

This portfolio shows how I turn information into organized, prioritized and execution-ready work - from prospect research and CRM preparation to calendar, inbox, task and follow-up management.

01 Structured research

I define fit before collecting data, so lists stay relevant.

02 Qualification judgment

I document why a prospect is worth contacting, not just where I found it.

03 CRM discipline

I keep records complete enough for follow-up, handoff and reporting.

04 Administrative ownership

I keep priorities visible, follow through and escalate with recommendations.
